Key Features
- 3LCD Laser Projector
- WUXGA 1920 x 1200
- 4K Ready
- 7,000 ANSI Lumens Brightness
- 2,500,000 : 1 Contrast Ratio
- 50,000 Hours Light Source Life (Long life 2 mode)
- HDBaseT x 1, HDMI x 2, HDMI Out x 1, Display Port x 1
- Blending and Warping with New Software Tool
- 360° Installation
- Multiple Lens Options (This model ships without a lens)
- Quiet Operation 32 dB (Normal), 26 dB (Whisper)
- 5-Year/20,000 Hours Warranty
- Supports Web Control, PJLink, Crestron Connected®, AMX, and Extron XTP

Maxell expands their laser projector line with a 7,000 ANSI lumens, 3LCD model delivering larger-than-life performance.

Maxell’s laser light source projector line now includes the 3LCD model MP-WU8701W with 7,000 ANSI lumens. The new laser phosphor light source offers approximately 20,000 hours (normal mode) of operation time and is virtually maintenance free, there is no lamp to replace providing a dramatic reduction in total cost of ownership. Ideal for digital signage applications, as well as a perfect choice for auditoriums, lecture halls, large classrooms, conference rooms and museums. Plus, 7,000 ANSI lumens brightness and 2,500,000 : 1 contrast ratio results in super bright display with outstanding image clarity and uniformity. Additionally a suite of advanced features includes High Dynamic Contrast Range (HDCR2), 3 HDMI ports, and Maxell’s original technology Accentualizer. As with all Maxell projectors, you can expect vibrant image quality, cost-efficient operation, and long-lasting reliability. For added piece of mind, Maxell’s MP-WU8701W is also backed by a generous 5-year warranty and our world-class service and support programs.
UNIQUE FEATURES

4K Ready
The projector allows 4K signal input on HDMI1, HDBaseT and Display Port input terminals. You can enjoy much better viewing experience with a 4K Ultra HD Blu-ray™ player or other devices. (HDMI1 and HDBaseT support 4K@24/25/30/50/60 signals. Display Port supports 4K@24/25/30 signals.)

Accentualizer
Maxell original technology makes pictures look more real by enhancing sharpness, gloss and shade to make pictures as clear as pictures on a flat-panel device. You can also adjust the effects by three levels according to your surroundings so that the colors of projected images are the actual colors of the objects they represent.

Sharpness
Gloss
Shade

Auto Power On
When the projector is in standby mode and detects the video signal input from an external device, this function starts up the projector to display the image automatically on the screen. This makes the time to start up the projector and begin presenting quicker and easier.

HDMI Out
When sharing content on multiple screens by multiple projectors, HDMI out is used to bring the content signal from one projector to another.

Perfect Fit 2
Enables the user to adjust individual corners and sides independent of one another. Perfect Fit 2 provides vertical and horizontal digital correction of either barrel or pin cushion distortions. This feature helps correct geometric and complicated distortions. Perfect Fit 2 allows the projected image to fit correctly to the screen quickly and easily.

Color Management
Allows you to change the HUE, SATURATION, LUMINANCE of each 6 colors (red, green, blue, cyan, magenta and yellow) without influencing each other. With this new technology, for example, you can change only bluish colors, such as the sky, while maintaining the other colors by adjusting the HUE of blue.

Edge Blending
Projectors are equipped with the Edge Blending function that achieves the seamless projection of one image using multiple projectors. The MP-WU8701W comes with various blending functions that meet the level users are looking for.
Instant blending: Easily perform blending processing without the use of any special equipment.
Automatic blending: Use a camera and quickly perform high precision blending processing automatically. Requires installation of a specialized application to your computer.

HDCR2 (High Dynamic Contrast Range)
When average projectors are used in bright rooms, the darker colors of an image deteriorate and images become unclear. Using this function, blurred images caused by room lighting or outside light sources are corrected, and an effect similar to increasing contrast occurs. The recent enhancement to HDCR2 achieves not only auto tone enhancement but also auto color enhancement. This results in clear and vivid images even in bright rooms.

HDMI Out
When sharing content on multiple screens by multiple projectors, HDMI out is used to bring the content signal from one projector to another.

Perfect Fit 2
Enables the user to adjust individual corners and sides independent of one another. Perfect Fit 2 provides vertical and horizontal digital correction of either barrel or pin cushion distortions. This feature helps correct geometric and complicated distortions. Perfect Fit 2 allows the projected image to fit correctly to the screen quickly and easily.

Projector Quick Connection App For Mobile Devices
Our iOS and Android applications offers projector control and also provides the capability to display photos, document files and web site contents. Available for iPad®, iPhone® and Android devices. Works over your LAN via your RJ-45 port or via an optional USBWL5G wireless adapter.

Warping
Warping is possible from your computer by using the specialized application. Projection is possible on spherical surfaces and surfaces with corners, as well as conventional flat screens.
STANDARD FEATURES

Motorized Zoom, Focus and Lens Shift: Allows for greater range of installation possibilities. With the 2 speed motorized function you can make fine adjustments through the remote control or RS232/IP device.

Network Control, Maintenance and Security: Embedded networking gives you the ability to manage and control multiple projectors over your LAN. Features include scheduling of events, centralized reporting, image transfer and e-mail alerts for reactive and routine maintenance.

Picture By Picture: Enables the content from two input sources to be displayed simultaneously, side by side on one screen. You can use two sources including 2 HDMI, with both images sharing equal screen size. The feature is ideal for teleconferencing applications.

Picture In Picture: Enables you to display one image inside another image using two sources including 2 HDMI.

PIN Lock / MyScreen / MyText: PIN lock protection can limit projector users. MyScreen PIN lock keeps captured images on the startup screen. Users can set any name logo to MyScreen, clearly identifying ownership. MyText provides the ability to write text on the startup screen such as model name, serial number or location.

Wireless Presentation Compatible: Connect the projector to a a computer or your network using the optional USB wireless adapter (part number USBWL5G). The adapter supports IEEE802.11 a/b/g/n/ac.

360° Rotation/Portrait Projection: Display rotation of 360° and portrait projection for creative applications and greater installation flexibility.
### Accessories and Lenses

**Supplied Accessories**
- Power cable, RGB cable, remote control, AA batteries x 2, lens cover, terminal cover x 2, cable tie x 4, security label, user’s manual (concise)

**Optional Accessories**
- USBWL5G wireless adapter

**Optional Lenses**
- 7 optional lenses are available: FL720M, USL701, FL701, SL712, ML713, LL704, UL705 (This model ships without a lens)

### Replacement Parts

- **Lamp**
  - Lamp free
- **Remote Control**
  - HL02806
- **Filter**
  - UX43481

**Lens**
- f = 1.6 - 2.0 mm, x 1.7 motorized zoom, focus and lens shift (with ML713) (This model ships without a lens)

**Lens Shift**
- Motorized V: -16.7% to +56.5%, H: +/- 10%

**Expected Light Source Life**
- Approx. 20,000 hours (Normal and Whisper mode), 30,000 hours (Long life 1 mode), 50,000 hours (Long life 2 mode)

**Expected Filter Life**
- Approx. 30,000 hours

**Computer**
- VGA, SVGA, XGA, WXGA, SXGA, WSXGA+, WSXGA+, UXGA, WUXGA, MAC 16*
  *(TH: > 106 kHz, FV: 50 - 120 Hz)*

**Component Video**
- NTSC, NTSC4.43, PAL, PAL-M, -N, SECAM

**Composite Video**
- 480i, 480p, 576i, 576p, 720p, 1080i, 1080p

**HDMI & HDBaseT & Display Port**
- 480i, 480p, 576i, 720p, 1080i, 1080p, 4K*
  - *4K supported with HDMI1, HDBaseT and Display Port (Display Port supports 4K [24/32/Hz])

**Digital Input**
- HDBaseT x 1, HDMI x 2, DisplayPort x 1

**Digital Output**
- HDMI x 1

**Computer Input 1**
- 15-pin mini D-sub x 1

**Computer Monitor Output**
- 15-pin mini D-sub x 1

**Video Input**
- Composite Video RCA jack x 1
  - Component Video 15-pin mini D-sub (shared with computer input)

**Audio Input**
- 3.5 mm stereo mini jack x 1, RCA jack (L/R) x 1

**Audio Output**
- 3.5 mm stereo mini jack x 1

**Network LAN Wired**
- RCA jack x 1 (10 base-T / 100 base-TX)

**Network LAN Wireless**
- USB-A, IEEE802.11 a/b/g/n/ac - optional wireless adapter required

**HDBaseT**
- RJ-45 port x 1

**USB**
- Type A x 1 (wireless network)

**Control Terminals**
- 9-pin D-sub x 1 (RS-232 control)

**Power Supply**
- AC100-120V / AC220-240V, 50/60Hz

**Power Consumption**
- 520W/500W

**Operating Temperature**
- 32°F - 113°F (0°C - 45°C) under 5,250 ft.
  - 32°F - 104°F (0°C - 40°C) 5,250 ft. - 10,000 ft.

**Dimensions (W x D x H)**
- 22.9” x 16.9” x 8.5” (excluding protrusions)

**Weight**
- Approximately 40.3 lbs.

**Approvals**
- UL 60950-1 / cUL, FCC part 15 subpart B Class A

**Warranty**
- 5-year/20,000 hours (whichever occurs first)
